BALLOT

Now you will hear a potential ballot initiative that voters could see on the ballot in the November election. Please indicate whether you would vote for or against it.

Ballot

A2CMB. This potential initiative would create a new Department of Community Safety and Violence Prevention, that may include police officers as one part of that larger department. To allow these changes to occur, the measure would eliminate a current legal requirement that the city pay for a minimum number of police officers per resident. The potential measure would mandate that the new Department of Community Safety engage regularly with the community and take a holistic approach to public safety rooted in public health.
